

CONTROLLER
Lower Fairfield County CT
Growing Profitable Company with Sales of \$20+ million
Local Candidates Only – No Relocation
Base Salary of \$125,000 plus Bonus

Our client is a successful, privately owned company that is well known in their product niche and has enjoyed a history of growth and innovation.

As they have grown, the needs for accounting and finance have outstripped the incumbent. The individual who is hired will direct and supervise a staff of five, interface with outside accountants, and provide advice and counsel to the owner and the senior management team.

This company is looking for an individual who can involve himself (or herself) in almost any financial or operational issues or area.

Our client is looking for an individual who is very experienced maintaining inventory controls, both costing of inventory and working with operations on inventory accuracy. To be considered, a candidate needs to be skilled in cost accounting in a manufacturing environment, and be able to communicate to management accurate cost information and margin analysis to identify cost reduction opportunities.

There are other priorities in terms of process improvement in other areas (Accounts Payable, Reporting, and budgeting in particular) that will be important over time.

To be considered, a candidate must have at least 10 years of experience that includes quantifiable accomplishments (faster closes, recommendations that helped reduce costs and/or improve sales and/or margins). Hands-on Accounting in a manufacturing company is a REQUIREMENT. Strong PC skills, solid knowledge of ERP systems, and communication skills are required. Experience in a small to medium-sized company is a SIGNIFICANT plus.

The individual who is hired must be organized, self-driven, and able to set and keep reasonable deadlines that have been agreed upon. He/she is expected to be a team player who is friendly but professional in his (or her) dealings with individuals, whether they work inside the company or work elsewhere.

If you have the skills, experience, and desire to be part of a strong team of individuals working in a highly challenging, changing environment, please write, call, email or FAX Rich Bond at:
